

Hang Seng Investment Index Funds Series III Hang Seng FTSE China 50 Index ETF

September 2024

IMPORTANT RISK WARNINGS / FUND INFORMATION FOR HONG KONG INVESTORS

- Hang Seng FTSE China 50 Index ETF (the "HS FCI50 ETF") is an index-tracking fund which aims to match, before expenses, as closely as practicable the performance of the FTSE China 50 Index (the "Index"). The HS FCI50 ETF invests primarily in the constituent stocks of the Index.
- The HS FCI50 ETF is different from a typical unit trust as it is listed on The Stock Exchange of Hong Kong Limited, and like other listed stocks, carry similar risks such as liquidity risk and risk of trading suspension. The market price per Unit could be significantly higher or lower than its Net Asset Value per Unit due to market demand and supply, liquidity and scale of trading spread in the secondary market and will fluctuate during the trading day.
- The HS FCI50 ETF is subject to tracking error risks, risks associated with passive investments and risks of concentration of investments in a single market/several constituent stocks of the Index.
- The Manager may, at its discretion, pay dividend out of capital. The Manager may also, at its discretion, pay dividend out of gross income while all or part of the fees and expenses of the HS FCI50 ETF are charged to/paid out of the capital of the HS FCI50 ETF, resulting in an increase in distributable income for the payment of dividends by the HS FCI50 ETF and therefore, the HS FCI50 ETF may effectively pay dividend out of capital. Payment of dividends out of capital or effectively out of capital amounts to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment. Any distributions involving payment of dividends out of the capital of the HS FCI50 ETF or effectively out of the capital of the HS FCI50 ETF may result in an immediate reduction of the Net Asset Value per Unit of the HS FCI50 ETF.
- Investment involves risks and investors may lose substantial part of their investment in the HS FCI50 ETF.
- Investors should not only base on this material alone to make investment decisions, but should read the HS FCI50 ETF's offering documents (including the full text of the risk factors stated therein) in detail.

Investment Objective

Hang Seng FTSE China 50 Index ETF is an index-tracking fund that seeks to provide investment returns for investors that match the performance of the FTSE China 50 Index as closely as practicable.

Performance Chart

HS FCI50 ETF: NAV to NAV basis, total return with dividend (if any) reinvested. (Source: NAV is are provided by HSBC Institutional Trust Services (Asia) Limited. The performance information of the HS FCI50 ETF is provided by the Manager.) Please note that the Units of the HS FCI50 ETF currently available are income units only. The performance information presented is calculated based on the assumption that there were no distributions to Unitholders, and is for reference only. To achieve comparability among funds' performance presentations in the market for investors, the Manager is to change the methodology used to calculate portfolio and composite returns with effective from 1 September 2022 onward. The change is the total return with dividend reinvested at ex-dividend date instead of payment date. Performance data published prior to 1 September 2022 is incomparable with the performance calculated by the new calculation methodology.

Index: FTSE China 50 Index, total return with dividend (if any) reinvested. Source: Bloomberg

The performance figures show by how much the Fund increased or decreased in value during the period being shown. Performance data has been calculated in HKD including ongoing charges and excluding your trading costs on SEHK.

Past performance information is not indicative of future performance. Investors may not get back the full amount invested.

Distribution Information

	Intended Frequency	Record Date	Amount / Share
HKD Counter	Semi-annually (if any)	23 Sep 2024	HKD 1.85

With effect from 29 May 2017, the Manager intends to make declaration of distribution in June and September (instead of June and November) of each year. A positive distribution yield does not imply a positive return.

Dividend Policy: Semi-annual cash dividends (if any) at the discretion of the Manager, which are expected to be in respect of the first half and the second half of each calendar year respectively. The Manager currently intends to make declaration of dividend in June and September of each year. There is no guarantee of regular distribution of dividends and, if dividend is paid, the amount being distributed. The Manager may, at its discretion, pay dividend out of capital. The Manager may also, at its discretion, pay dividend out of gross income while all or part of the fees and expenses of the HS FCI50 ETF are charged to/paid out of the capital of the HS FCI50 ETF, resulting in an increase in distributable income for the payment of dividends by the HS FCI50 ETF and therefore, the HS FCI50 ETF may effectively pay dividend out of capital. Payment of dividends out of capital or effectively out of capital amounts to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment. Any distributions of dividends involving payment of dividends out of capital or effectively out of capital may result in an immediate reduction of the Net Asset Value per Unit.
